

# CREATHERM™ Radiant Floor Panels

# T45

thin:::panel thickness 1.8"

## Fast. Easy. Saves Labor. Just Walk It In.

### BENEFITS OF RADIANT FLOOR PANELS

Building with expanded polystyrene foam allows you to be innovative. Foam is incredibly strong, quiet, resistant to insects and mold, and virtually allergen free. These panels offer a great solution for slab-on-grade, snow melt and root zone heating.

- + ENERGY efficient
- + ENVIRONMENTALLY friendly
- + FEW design limitations
- + Installation time CUT up to 75%

Our thinner T45 offers a reduced "R" Value, but is ideal for retro-fit projects. The finished floor panel size is 2' x 4' and features a staggered snap-tight grid for optimal tubing spacing. On-center points exist every 3 inches.

Create your own imprint. Ask about customizing our Creatherm™ Radiant Floor Panels to achieve exclusivity in your market.
